

BRIGHT FUTURE MADE BY YOU

START YOUR INTERNATIONAL CAREER!

The Unilever International Internship Programme (UIIP) is a world-class 6-month internship in one of our Marketing, Finance or Supply Chain functions. You will have the opportunity to work on dynamic and innovative projects where you learn from the best, joining a team of experienced individuals that will help you develop yourself both on a personal and professional level. Just like An-An who studied Business Administration in Germany and joined the UIIP in Marketing.

UIIP IN MARKETING

You will join our Marketing team, either at our global headquarters in London or our European headquarters in Rotterdam. Here you will work together with our leadership team to strategically develop iconic brands such as Ben & Jerry's, Dove, Lipton or Knorr.

UIIP IN FINANCE

You will join our Finance team at our European Operations Centre in Katowice or Rotterdam. Here you will work on projects that will show you how finance has a major influence on the future of brands – and the world.

UIIP IN SUPPLY CHAIN

Here you will have an impact on our Logistics across the European countries. You will support the challenge of creating sustainable delivery processes for our diverse products in several markets.

LEARN BY EXPERIENCE

Our interns are constantly surprised and delighted by how included and involved they are, and by how much responsibility they are given. But this is the best way to learn and the best way to gain insight on how we really work. You will work on real challenges and business cases for our leading iconic brands, like Dove, Knorr, Magnum, Hellmans, Lipton, and TRESemmé. Working with senior managers you will make a social, environmental and business impact, playing a role in moving our innovations from concept idea to full scale production, depending on the business area you work in. You may also get the chance to work with external partners or teams from other business areas at a global or regional level. What's certain is you'll never live the same day twice.

LEARN THROUGH PEOPLE

Aside from the opportunities to learn from business leaders, during your Internship you will also learn from a mentor and buddy. The mentor is either one of our trainees on the UFLP or an experienced manager, who will guide your development. The buddy will be another intern or assistant manager, who will help you with your day-to-day job and life.

FORMAL LEARNING

You will set key business priorities and development areas for the Internship together with your manager, and measure progress with mid and post-internship reviews. You will develop your project management skills through a real project supported by workshop sessions.

UIIP Facts

WHAT

A full-time internship programme that is offered in different international locations.

WHEN

The programme runs twice a year, from March and September.

HOW

Apply online for the UIIP via www.unilever.co.uk/careers/graduates/start-your-international-career

"I created a complete proposal on the brand portfolio to improve the value of washing powder"

AN-AN
former International Intern in Marketing, Rotterdam

"I proposed a solution to our current challenges in washing powders. Through extensive research and analysis I created a complete proposal for 6 of our products. This project allowed me to deep dive into the 6Ps from every possible angle, coming up with an in-depth solution to improve our pricing and packaging strategies. I was given the freedom and accountability to manage this project independently, prioritizing & managing tasks amongst other projects. This internship is what you make of it – Unilever & its brands gave me many opportunities to grow."
